

Lake George Sailing Association - Laser Fleet

2023 Laser Racing Schedule:

June 10 -- Racing session #1

June 24 -- Racing session #2 & Regatta (first two finishes count for the regular season)

July 15 -- Racing session #3

July 29 -- Racing session #4

Aug. 12 -- Racing session #5

Aug. 26 -- Racing session #6

Races will be on Saturdays with the starting signal at 1:30. Listen for a series of short sounds on a horn or whistle to signal that the countdown is coming up. We will aim for the following sequence:

1:25 – First preparatory signal (long sound)

1:26 – Second preparatory signal (long sound)

1:29 – Warning signal (long sound)

1:30 – Starting signal (long sound)

The race chair will let sailors know what the course is before he/she begins the countdown sequence. Race chair is responsible for recording finish order.

Two races will be held on each of the scheduled racing sessions if weather cooperates. Each of the two races will count toward the final season standings. For the Regatta each participant's first two races will count toward the regular season, so there are potentially 12 races for the season. Final season standings will be based on each sailor's best **seven** races. Three trophies will be awarded.

Parties will be held after the Regatta and at the end of the season.

The regular season race courses are relatively short depending on weather conditions and to accommodate two back-to-back races.

Come on out and have some Laser fun!
